

The First Scientific Video Journal

Indispensable for Research and
Education in Biology and Medicine

Why Subscribe?

JoVE (Journal of Visualized Experiments) is the first and only peer reviewed, PubMed/Medline indexed journal devoted to the publication of biological, medical, chemical and physical research in a video format.

Since 2006, JoVE has been saving students, faculty and their institutions time and money by providing video-articles to learn new methods.

Target Audience

Researchers, professors and students at all levels of science education in medicine, biology, physics, chemistry and related fields

Content

- Video demonstrations of biological experiments (video-protocols)
- 2,600+ video protocols published 60 per month
- Dedicated Sections:
 - N** Neuroscience
 - B** Bioengineering
 - i²** Immunology & Infection
 - C** Chemistry
 - G** General Biology
 - Bh** Behavioral Science
 - CTM** Clinical & Transitional Medicine
 - AP** Applied Physics
 - E** Environmental Science

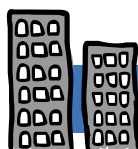

Features

- Peer Reviewed
- Indexed in Medline and PubMed
- Editorial Board: 30 faculty members from Harvard, Princeton, NIH and other institutions
- Unlimited simultaneous users, off campus access access through proxy server
- Perpetual access to video articles acquired through subscription

Web Traffic

- 300,000 visitors per month
- Traffic sources:

7% PubMed/Medline	20% Direct
56% Google	17% Other

Subscribers more than 500 including

Harvard
