

Dear Zhao Chen,

How we discussed in our exchange mails, here is the manuscript entitled (F_1F_0 ATPase vesicle preparation and recordings for ATP synthase activity study) for publication in Journal of Visualized Experiments.

The manuscript was written with the intent of serving as a procedure manual for other investigators who wish to replicate this work.

With the submission of this manuscript I would like to undertake that all authors of this paper have read and approved the final version submitted and that the contents of this manuscript have not been copyrighted or published previously.

Sincerely
