

Create New Protocol

Select Protocol Type:

☒ Standard Protocol

Data reduction is performed independently for each plate.

☐ Calibration Protocol

Standards or Controls on the Calibrator plates (one or more) are used to analyze data on the 'Other' plates.

Calibrator plates: 1

Initial 'Other' plate count: 1

☐ Multi-Plate Assay Protocol

Standards, Controls or samples are distributed across plates.

Number of plates: 1

☐ All plates have identical layout

☐ Use several existing protocols on the same plate (paneling)
