Dear Dr Samarasinghe

Thank you for contacting Nature Publishing Group. As an author, you have the right to use this manuscript and figures, as per the licence-to-publish you signed:
Ownership of copyright in the article remains with the Authors, and provided that, when reproducing the Contribution or extracts from it, the Authors acknowledge first and reference publication in the Journal, the Authors retain the following non-exclusive rights:

- a) To reproduce the Contribution in whole or in part in any printed volume (book or thesis) of which they are the author(s).
- b) They and any academic institution where they work at the time may reproduce the Contribution for the purpose of course teaching.
- c) To post a copy of the Contribution as accepted for publication after peer review (in Word or Text format) on the Authors' own web site or institutional repository, or the Authors' funding body's designated archive, six months after publication of the printed or online edition of the Journal, provided that they also give a hyperlink from the Contribution to the Journals web site.
- d) To reuse figures or tables created by them and contained in the Contribution in other works created by them.

For open access content published under a Creative Commons license, authors can replace the submitted version with the final published version at publication. Open Access content can be reused, without permission for all non-commercial purposes.

For more information, please see our website: <http://www.nature.com/reprints/permission-requests.html>

Kind regards,
Stacey

Subject: Our publication ICB.2013.113

Dear Dr. Belz,

I'm writing to you regarding our recent publication in ICB titled "The immune profile associated with acute allergic asthma accelerates clearance of influenza virus." We were recently contacted by one of the editors at JOVE journal who would like us to publish expanded methods. We would like to accept this invitation but I am not familiar with the process involved as the methods pertain to our published paper. Would you please let me know how I should proceed to obtain the necessary permission from ICB?

Thanking you,
Amali
