Springer material

- represents original material which does not carry references to other sources. If the material in question appears with a credit to another source, this permission is not valid and authorization has to be obtained from the original copyright holder;
- requires full credit (Springer and the original publisher, book/journal title, chapter/article title, volume, year of publication, page, name(s) of author(s), original copyright notice) to the publication in which the material was originally published by adding: "With permission of Springer Science+Business Media";
- figures, illustrations, and tables may be altered minimally to serve your work. Any other abbreviations, additions, deletions and/or any other alterations shall be made only with prior written authorization of the author and/or Springer Science+Business Media;
- may not be republished in electronic open access;
- **Springer does not supply original artwork or content.**

This permission

- is non-exclusive;

PERMISSION LETTER

- includes use in electronic form, provided it is password protected, on intranet, or CD-ROM/DVD, or E-book/E-journal;
- is personal to you and may not be sublicensed, assigned, or transferred by you without Springer's written permission;
- is only valid if no personal rights, trademarks, or competitive products are infringed;
- explicitly excludes the right for derivatives.

Additional Provisions

- ***Warranties***

Springer Science+Business Media makes no representations or warranties with respect to the licensed material.

- ***Indemnity***

You hereby indemnify and agree to hold harmless Springer Science+Business Media and its respective officer, directors, employees, and agents, from and against any and all claims arising out of your use of the licensed material other than specifically authorized pursuant to this license.

Permission free of charge does not prejudice any rights we might have to charge for reproduction of our copyrighted material in the future.

This license is valid only when the conditions noted above are met.
