

	ICC	P value
Mechanical sensitivity (rt. forearm):	0.76	0.08
Constant temp. intensity (lf. forearm):	0.96	<0.01
Constant temp. unpleasantness (lf. forearm):	0.97	<0.01
Hargreaves sensitivity (rt. forearm):	0.95	<0.01
Hargreaves pain (rt. forearm):	0.89	0.02
Pressure pain threshold (lf. forearm):	0.86	<0.01
Constant pressure intensity (rt. forearm):	0.98	<0.01
Constant pressure unpleasantness (rt. forearm):	0.97	<0.01

Table 1: Intraclass correlation (ICC) values for the seven pain and sensitivity measures.

Individual subjects (n=6) were assayed by two investigators (one male and one female). All tests were performed on the same day (30 minutes apart). ICC and corresponding P values are given for each measure.
