Dear Dr. Dunn,

The American Association of Immunologists, Inc., grants permission to reproduce Figure 9A, 9B, and 9H from the article, "Antagonizing Peroxisome Proliferator-Activated Receptor δ Activity Selectively Enhances Th1 Immunity in Male Mice," published in *The Journal of Immunology*, vol. 195, pp. 5189-5202, 2015, in the *Journal of Visualized Experiments*, published by MyJoveCorp, contingent on the following conditions:

1. That you give proper credit to the authors and to *The Journal of Immunology*, including in your citation the volume, date, and page numbers.
2. That you include the statement:

Copyright 2015. The American Association of Immunologists, Inc.

3. That permission is granted for one-time use only for print and electronic format. Permission must be requested separately for future editions, revisions, derivative works, and promotional pieces. Reproduction of any content, other than Figures and Figure Legends, from *The Journal of Immunology* is permitted in English only.

Thank you for your interest in *The Journal of Immunology*.

Sincerely,

Gene Bailey
Senior Editorial Manager
The Journal of Immunology
