Journal of Visualized Experiments

Re: Revised Invited Manuscript Submission (JoVE57646R1); Alizadeh et al.

Dear Dr. Myers,

We are pleased to re-submit the our revised paper entitled “**Detection Small GTPase Prenylation and GTP binding using Membrane Fractionation and G-LISA**” by Javad Alizadeh, Shahla Shojaei, Simone da Silva Rosa, Adel Rezaei Moghadam, Amir A. Zeki, Mohammad Hashemi, Marek J. Los, Joseph W. Gordon, Saeid Ghavami, for consideration and evaluation to be published in “**Journal of Visualized Experiments**”.

This method paper now revised based on respected reviewers’ comments as following:

The video cannot exceed 15 minutes in total length.

Answer: We acknowledge the comment of respected reviewer and managing editor. Based on this comment the video has been shortened in revised version and it is now less than 15 minutes total length.

The video must have a separate representative results section following the protocol. This section must have voice-over describing the results being shown. For example figure at time 8:12 min is not explained.

Answer: We acknowledge the comment of respected reviewer and managing. Based on this

comment we have revised the video and each section has representative results and we include voice-over each result section for description.

The video must have a concluding statement after the results section.

Answer: We acknowledge the comment of respected reviewer and managing in revised section we have concluding statement after/during result section.

The video must have title cards at beginning and end. These title cards should include the authors' names and their affiliations.

Answer: We acknowledge the comment of respected reviewer and managing. Based on this comment we have revised the video we have included title cards at beginning and end of revised video.

Along with the above comments please ensure that the video must not show any commercial products for example, at time stamps 7:26 min cell signaling, 16: 25 min Gen5, etc. Please avoid showing commercial names throughout the video.

Answer: We acknowledge the comment of respected reviewer and managing. Based on this comment we did our best to avoid commercial label in the video.

Please also use imperative tense throughout the protocol. For example, at time stamps 5:53, 6:20, 6:38, 8:31, 9:12, 9:36 mins etc.

Answer: We acknowledge the comment of respected reviewer and managing. Based on this comment we have revised the video sound track and use imperative tense throughout the protocol.

At few places actions are covered by hands. Please have a better position for the camera.

Answer: We acknowledge the comment of respected reviewer and managing. Based on this comment we have revised the video so the action is not covered by hands

Sincerely,

Saeid Ghavami, BSc, MSc, PhD, Assistant Professor
