22nd February 2018

To whom it may concern,

Please find submitted my invited manuscript entitled “*Controllable nucleation of cavitation from plasmonic gold nanoparticles for enhancing high intensity focused ultrasound exposures*” to be reviewed as an original contribution, for publication in JoVE. As corresponding author I can confirm that is manuscript, or parts of, have not and will not be submitted elsewhere for publication.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'J McLaughlan', with a stylized flourish at the end.
