**Subject: JoVE58077R2 Manuscript revision**

Vienna, 10.06.2018

Dear Dr. Bing Wu,

Please find our point-by-point response below.

**Editorial comments:**

1. Please take this opportunity to thoroughly proofread the manuscript to ensure that there are no spelling or grammar issues.

*We revised the manuscript, checked the grammar and corrected mistakes.*

2. The highlighted protocol steps are over 2.75 pages limit. Please highlight less than 2.75 pages of protocol steps for filming.

*We reduced the highlighted text to under 3 pages by removing one method (high throughput i.p. method).*

3. Please highlight complete sentences (not part of sentences) for filming.

*The manuscript was revised to ensure that no partial sentences are highlighted.*

Yours sincerely,

Oskar Hoffmann
