Dear editors,

please find included the revised version of our manuscript "ChIP-assay to identify novel NFAT2 target genes in chronic lymphocytic leukemia" by Alexander Fuchs et al. to be considered for publication in the Journal of Visual Experiments. We have now revised the manuscript again according to your comments from May 23, 2018. All changes made to the previous version of the manuscript are highlighted in green.

Please find our detailed response below.

Editorial comments:

1. The editor has formatted the manuscript as per the journal's style. Please retain the same.

Response: The format has been retained.

2. Please address all the specific comments marked in the manuscript.

Response: All the specific comments marked in the manuscript have now been addressed.

3. Unfortunately, there are a few sections of the manuscript that show significant overlap with previously published work. Though there may be a limited number of ways to describe a technique, please use original language throughout the manuscript. Please see lines: 33-34, 39-40, 62-63, 88-89.

Response: The respective sections have been rephrased.

4. Please remove embedded tables from the manuscript and upload it separately as .xls/xlsx file. Two individual files. Please include the table legend in the figure/table legends section.

Response: The respective tables have been removed from the manuscript and are now added as separate .xls/xlsx files. The table legend is now included in the figure/table legends section.

5. Please obtain explicit copyright permission to reuse any figures from a previous publication. Explicit permission can be expressed in the form of a letter from the editor or a link to the editorial policy that allows re-prints. Please upload this information as a .doc or .docx file to your Editorial Manager account. The Figure must be cited appropriately in the Figure Legend, i.e. "This figure has been modified from [citation]."

Response: The manuscript does not contain any figures from previous publications.
