Dear Editor,

We submit the attached manuscript entitled “A view of their own: Capturing the egocentric view of infants and toddlers with head-mounted cameras” for consideration in the *Journal of Visualized Experiments* as an invited submission. The manuscript is an original work, is not currently being considered elsewhere for publication, and will not be submitted elsewhere prior to your editorial decision. Jeremy I. Borjon will be the corresponding author for this manuscript. Their contact information is listed below.

We believe this work is worthy of consideration for the *Journal of Visualized Experiments*. It provides an important framework for capturing the egocentric views of infants using head-mounted cameras and provides a novel contribution to work in developmental psychology seeking to better understand the visual ecology of the developing child.

Sincerely,

Jeremy I. Borjon
Sara E. Schroer
Sven Bambach
Lauren K. Slone
Drew H. Abney
David J. Crandall
Chen Yu
Linda B. Smith
