Hi- please see reprint permission in the email below as apparently the one I uploaded to your system was corrupted.

Many thanks,

Andrew

Dear Andrew Broadbent

Thank you for your permission request. The Microbiology Society no longer responds to individual permission requests; these are now handled by the Copyright Clearance Center.

If you are an author (or an author's representative) of the content for which you are requesting permission:

The copyright transfer agreement/licence to publish that was signed by the authors gives express permission for authors to reuse their own content, provided that the journal is acknowledged as the original source. No further permission is required.

If another publisher requires confirmation that permission has been granted, please forward this email to them.

If you are NOT an author of the content for which you are requesting permission:

Please click on the '© Get Permissions' link that appears with the online article. Alternatively, you can visit www.copyright.com.

Please note that the Copyright Clearance Center will charge a processing fee for each request. Additional charges may apply for reuse for "for-profit" purposes.

For manuscripts published with open access or beyond 12 months of publication, all of the content in the articles are published under an open access license called "CC-BY". This license allows you to download, reuse, reprint, modify, distribute, and/or copy articles or images. You must give appropriate credit, provide a link to the license, and indicate if changes were made. You may do so in any reasonable manner, but not in any way that suggests the licensor endorses you or your use.

With Kind Regards,

Kirsty Vance

Subject: permisison for use of figures in another manuscript

Dear Editorial office,

I am writing a methods article for the Journal of Visualized Experiments (JoVE). The journal publishes methods that have been used to generate data previously published in results-driven journals and allows figures or results from a prior publication providing the author obtains permission from the original publisher and include appropriate citation (<https://www.jove.com/publish/editorial-policies/>). I would like to include figures 1 and 2 from a manuscript published in Journal of General Virology by ourselves, doi: 10.1099/jgv.0.000979 (<http://jgv.microbiologyresearch.org/content/journal/jgv/10.1099/jgv.0.000979>).

Please could you let me know how to proceed?

Many thanks,

Best wishes,

Andrew
