### Editorial comments:

The manuscript has been modified and the updated manuscript, **58532\_R1.docx**, is attached and located in your Editorial Manager account. **Please use the updated version to make your revisions.**

1. Please take this opportunity to thoroughly proofread the manuscript to ensure that there are no spelling or grammar issues.

We thoroughly checked the manuscript.

2. JoVE cannot publish manuscripts containing commercial language. This includes company names of an instrument or reagent. Please remove all commercial language from your manuscript and use generic terms instead. All commercial products should be sufficiently referenced in the Table of Materials and Reagents. Examples of commercial language in your manuscript include speedVac, Sepharose, Potter, etc.

We replaced all the commercial term into generic terms

3. Please use a single space between numerical values and their units.

Done it

4. Unfortunately, there are a few sections of the manuscript that show significant overlap with previously published work. Though there may be a limited number of ways to describe a technique, please use original language throughout the manuscript. Please revise line 36-38, line 115-118, line 152-155.

We made an attempt to eliminate the overlaps
