

**BALL STATE
UNIVERSITY**

Dear JoVE Editorial Staff,

We are pleased to resubmit our invited manuscript “CRISPR mediated genome editing in the human fungal pathogen *C. albicans*” with the edits that you recommended. Our paper provides protocols to edit the genome of the most prevalent human fungal pathogen *C. albicans*. Furthermore, our manuscript discusses a variety of applications and limitations of CRISPR mediated genome editing in *C. albicans*. If you have any questions regarding the manuscript, please feel free to contact me.

Sincerely,

Douglas Bernstein PhD
