CIBIO – Centre for Integrative Biology

Trento, September 5th, 2018

To Dr. Phillip Steindel,
Review Editor
of *Journal of Visualized Experiments*

Dear Dr. Steindel,

We would like to thank you for the opportunity of revising our manuscript entitled “Generation of cancer cell clones to visualize TERRA molecules expressed from a single telomere in living cells” that we were invited to submit to the *Journal of Visualized Experiments*. We have revised the protocol according to the editors’ comments. All changes in the manuscript are indicated with a red color.

We hope our work is ready to be shared with the readership audience of the *Journal of Visualized experiments*.

We are looking forward to hearing from you,

With kind regards,

A handwritten signature in blue ink, reading "Emilio Cusanelli".
