2 January 2019

Dear Dr. DSouza

We are pleased to submit to JoVE our revised manuscript, titled “**Genome editing in mammalian cell lines using CRISPR-Cas**”. As requested, we have addressed all the editorial comments, with changes to our manuscript text highlighted using the “Track Changes” tool. The Table of Materials and one of the figures have been updated as well.

Please feel free to let us know if anything else is required. Thank you for your time.

Yours sincerely,

A handwritten signature in blue ink, which appears to read "Meng How TAN".

Meng How TAN, Ph.D.
