Dear Dr. Bajaj,

We resubmit our further revised manuscript, "*Modeling breast cancer via intraductal injection of Cre-expressing adenovirus to mouse mammary gland*" (JoVE59502), for consideration of publication in *JoVE*.

In the revision, we addressed all the specific comments marked in the manuscript. We also highlighted the steps corresponding to the intraductal injection procedure of this protocol. For a detailed point-to-point response, a rebuttal letter is enclosed.

We thank you again for considering our manuscript.

Yours sincerely,
