Title: Permission request for reuse of one figure from article 10.1021/acs.nanolett.8b03388
Description: Hello,

We would like to reuse one figure (Figure 1) from the article <https://pubs.acs.org/doi/10.1021/acs.nanolett.8b03388> in a follow-up video article which will be published in the Journal of Visualized Experiments (<https://www.jove.com/journal>). This article describes technical details concerning the preparation of our liquid cells for electron microscopy schematics, which is depicted in this figure, was claimed to be shown by one of the reviewers. Therefore, we would like to use the figure with a reference to the original article instead of a newly designed schematics.

What do we have to do to get the permission for that?

Best regards,

Andreas Hutzler
