Aaron Berard, PhD
Science Editor
Journal of Visualized Experiments

Dear Dr. Berard,
I would like to resubmit a manuscript entitled, "Using Looming Visual Stimuli to Evaluate Mouse Vision." for consideration for publication in Journal of Visualized Experiments (JoVE).

We have thoroughly revised the manuscript based on Editors and Reviewers' insightful comments. We feel that the manuscript is substantially improved with full explanations of the each experimental step.

Thank you very much for your consideration. I look forward to hearing from you soon.

Sincerely,

A handwritten signature in black ink that reads 'Tomomi Ichinose'.
