

March 27, 2019

Dear Dr. Wu,

Thank you very much for the additional revisions offered by you and your editorial staff. We have “tracked” all changes in the manuscript to identify the most recent changes to the manuscript. Please also find below a point-by-point response to the comments made regarding our paper below:

---

*Comment #1: Please take this opportunity to thoroughly proofread the manuscript to ensure that there are no spelling or grammar issues*

- All authors reviewed the updated manuscript for correct grammar, usage and syntax.

*Comment #2: Figure 1: Please add a short description of the figure in Figure Legend.*

- A short description was added as requested.

*Comment #3: Figure 2: Please provide a title for the whole figure.*

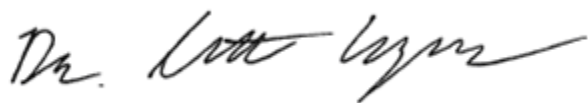

- A title was added as requested.

*Comment #4: Figure 3: Please add a short description of the figure in Figure Legend.*

- A short description was added as requested.
- 

On behalf of my coauthors, I thank you for your time and look forward to your response.

Sincerely yours,

Dr. Scott Eagon  
Assistant Professor of Medicinal and Organic Chemistry  
California Polytechnic State University
