Dear Ram,

Thank you for contacting Springer Nature. As an author, you have the right to use this manuscript and figures, as per the licence-to-publish you signed:

Ownership of copyright in original research articles remains with the Author, and provided that, when reproducing the contribution or extracts from it or from the Supplementary Information, the Author acknowledges first and reference publication in the Journal, the Author retains the following non-exclusive rights:

- a) To reproduce the contribution in whole or in part in any printed volume (book or thesis) of which they are the author(s).
- b) The author and any academic institution where they work at the time may reproduce the contribution for the purpose of course teaching.
- c) To reuse figures or tables created by the Author and contained in the Contribution in oral presentations and other works created by them.
- d) To post a copy of the contribution as accepted for publication after peer review (in locked Word processing file, of a PDF version thereof) on the Author's own web site, or the Author's institutional repository, or the Author's funding body's archive, six months after publication of the printed or online edition of the Journal, provided that they also link to the contribution on the publisher's website.

The above use of the term 'Contribution' refers to the author's own version, not the final version as published in the Journal.

Best wishes,
Oda
