Dear Editor,

We would like to submit a revised version of our manuscript (JoVE60488) "Identification of host pathways targeted by bacterial effector proteins using yeast toxicity and suppressor screens" for consideration by JoVE.

We have carefully reviewed the manuscript and have addressed all the concerns raised by the editor and peer-reviewers. We hope that our manuscript is found to be acceptable by JoVE, the editors, and peer-reviewers. If there is anything you need in relation to this resubmission, please don't hesitate to ask. We look forward to hearing back from you soon.

Sincerely,

A handwritten signature in black ink, appearing to read "Mary M. Weber", followed by a long, horizontal, slightly wavy line that extends to the right.

Mary M. Weber, Ph.D.
