Subject: Manuscript Submission

Dear Jaydev Upponi,

We respectfully submit our manuscript entitled “NF- κ B-dependent luciferase activation and quantification of gene expression in *Salmonella* infected tissue culture cells” for publication in Journal of Visualized Experiments. Here we describe a simple method to measure activation of the transcription factor NF- κ B in HeLa cells that are stably transfected with a NF- κ B-luciferase construct.

Thank you for your time and effort in considering this manuscript for publication in JoVE.

Sincerely,

A handwritten signature in black ink that reads 'M. Keestra-Gounder'.

Marijke Keestra-Gounder, Ph.D.
