Subject: Revised manuscript submission JoVE60740

Dear Dr. DSouza,

On behalf of myself and the co-authors I would like to thank you and the reviewers for the favorable review of our manuscript, JoVE60740: **“Strategy for visualization, quantification, and mapping of immune cell populations in the tumor microenvironment”**.

We have significantly addressed the additional points you raised in your last review

We believe that this novel methodology findings will be of great interest to the field of Immunology, Infection and Cancer, especially at institutes with limited budget.

I thank you in advance for this invitation and I look forward to a favorable response from you on behalf of JoVE.

Sincerely,

Naglaa Shoukry, B. Pharm, Ph.D.

Professor, Department of Medicine, University of Montreal
Director, Canadian Network on Hepatitis C (CanHepC)
