

**2 CFPS water-in-oil droplets formation**  
(10 min, on ice)

(10 min, on ice)

CFPS water-in-oil droplets

Mineral oil with POPC & Cholesterol

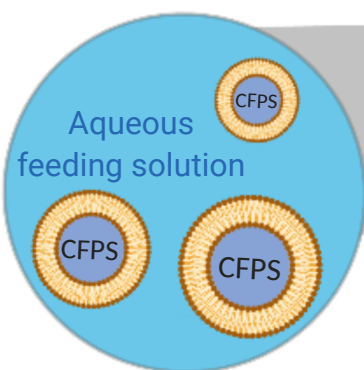

Outer solution  
(0.2 M glucose)

**3 CFPS water-in-oil droplets loading**  
on top of the oil phase

**4 CFPS particles formation**  
centrifugation  
(100 x g, 400 x g, 4 °C)

**1 Lipid layer in the water-oil interface**  
(30 min, RT)

**5 Suspension in the feeding solution**  
for protein expression

CFPS particles in aqueous buffer
