RE: JoVE60868R1

Dear Dr. Wu,

Attached is our revised manuscript entitled “Microwaving and fluorophore-tyramide for multiplex immunostaining on mouse adrenals— using un-conjugated primary antibodies from the same host species.” In this revision, we have made changes based on editorial comments. Text changes are highlighted in **yellow** in the body of the manuscript.

Table of Material has also been updated.

We hope you will see the current version acceptable for publication in *JoVE*.

Thank you very much.

Best,

C. Jeff Huang, DVM, PhD

Editorial comments:

1. Please take this opportunity to thoroughly proofread the manuscript to ensure that there are no spelling or grammar issues.

Reply: proofread.

2. Please specify all antibodies and blocking reagent in the protocol. Please also specify the concentration.

Reply: Detailed information of each antibody and reagent now is mentioned in the protocol (e.g. Line 107-115).

3. Step 1.6: Please specify the concentration.

Reply: specified.

4. 1.16: Please specify the temperature for incubation.

Reply: specified.

5. Step 4: Please specify the temperature for incubation.

Reply: specified.

6. Step 6: Please specify the settings.

Reply: specified.

7. Please do not abbreviate journal titles for references.
