

**Francois X. Rwandamuriye**

Francois Rwandamuriye is a PhD student in the Sarcoma Group at Telethon Kids Institute under the supervision of Dr. Joost Lesterhuis. Francois completed a Master of Infectious Diseases at the University of Western Australia in 2014, and before starting his PhD, Francois was working as a research assistant at the Institute for Immunology and Infectious Diseases at Murdoch University, under the supervision of Prof. Elizabeth Phillips and Ass/Prof. Alec Redwood. Francois' PhD project aims to tackle one of the key problems in the treatment of soft tissue sarcoma—local cancer relapse after surgery.
