Subject: RE: permission to use some results from TVST paper

Dear Dr. Luo,

Thank you for your email. As a TVST author, you retain the right to reuse material from your TVST article in your future work, with appropriate attribution. You do not need to ask for permission to reuse your own material. You are welcome to take some of the data from your TVST article and re-plot it in a new figure for a new article.

Best regards,

Debbie Chin

Subject: permission to use some results from TVST paper

Hi Debbie,

We published a paper on TVST early this year, "Pundlik S, Tomasi M, Liu R, Houston K, Luo G. Development and Preliminary Evaluation of a Smartphone App for Measuring Eye Alignment. Translational Vision Science & Technology. 2019;8(1)". In that study we evaluated a smartphone app for measuring strabismus. Now we are writing a new manuscript to be submitted to another journal, describing in more details about the protocol using the app. We hope that by following the protocol, people would be more likely to achieve similar accuracy as we showed in the TVST paper. I am writing to request a permission to use some of the relevant data published on TVST in the new manuscript. We will re-plot the used data in a new figure. I wish the permission can be granted.

Regards,

Gang Luo, Ph.D
