

November 26, 2019

Dear editor,

We deeply appreciate the constructive editorial and reviewers' comments for our manuscript titled "Protocol for the Generation of a human iPSC-based Blood-Brain Barrier-Chip (BBB-Chip)" by Jagadeesan *et al.* We addressed all comments in the revised manuscript. Changes within the manuscript are underlined in the submitted file.

In addition, we provide a point-by-point Response letter, in which responses are marked in *italics*.

We hope that you find the improved manuscript suitable for publication and we appreciate the opportunity to submit to your journal.

Respectfully,

Gad Vatine, Ph.D
