JoVE Genetics

January 30, 2020

Dear Xiaoyan,

Thank you for your interest in having our manuscript "High-resolution mapping of protein-DNA interactions in mouse stem cell-derived neurons using chromatin immunoprecipitation-exonuclease (ChIP-exo)" reviewed at JoVE. We have provided a point by point response to each of the reviewers' comments. The manuscript also followed Editorial comments and confirms to JoVE instructions for authors.

Sincerely,

Ho Sung Rhee, PhD
Assistant Professor
