Submission of Revised Manuscript

Dear Editors:

We have submitted a thoroughly revised version of our manuscript entitled *Isolation of human ventricular cardiomyocytes from vibratome-cut myocardial slices*.

According to the reviewers' comments, we added additional data to demonstrate the functional quality of isolated cardiomyocytes. Furthermore, we added more details to the protocol as requested. We also reviewed our manuscript to address the editorial comments.

We hope that you will find the revised version of our manuscript acceptable for publication in JoVE.

Sincerely,

Dominik Fiegle, Tilmann Volk and Thomas Seidel
