**Dr. Ronald Myers**

Science Editor

*JoVE*

Cambridge, MA, USA

Dear Dr. Myers,

Thank you very much for processing our manuscript titled "Assessment of *de novo* protein synthesis rates in *Caenorhabditis elegans*", which we prepared for the *JoVE* Methods Collection titled "Using *C. elegans* to monitor proteostasis imbalances", edited by Dr. Cindy Voisine and Dr. Carmen Nussbaum-Krammer. We are, hereby, submitting our revised manuscript, based on the comments and suggestions of the Review Editor. In the accompanying Response letter, we provide a detailed description of our revisions and our responses to comments.

We will be standing by for any further clarifications or information, pertinent to our revisions that may be required.

Thank you very much for the invitation and for your consideration of our work. We look forward to hearing from you in the near future.

Sincerely yours,

Nektarios Tavernarakis,
