

Rebuttal for JoVE61258 "Non-radioactive assay for measuring polynucleotide phosphorylation on small nucleotide substrates"

Our reply to the editor's comments are shown in (blue).

Editorial comments:

1. The editor has formatted the manuscript to match the journal's style. Please retain and use the attached version for revision.

All changes were made to the editors formatted manuscript. Our changes are indicated by the track changes feature in word.

2. Please address all the specific comments marked in the manuscript.

We have addressed all the specific comments marked in the manuscript.

3. Once done please proofread the manuscript well and ensure that the highlighted section is no more than 2.75 pages including headings and spacings.

The manuscript has been thoroughly proofread by both authors and the highlighted section is less than 2.75 pages. Please note that the highlighted section does not include the notes which are dispersed within the protocol.
