Dear Todd,

Since authors retain copyright of their articles, they are free to reproduce material from their own work in other publications, without the need to obtain permission from us separately. We would always recommend however that as a courteous measure you inform all your co-authors of your intentions.

The acknowledgement is very important and should state "reproduced/adapted with permission" and give the source journal name - the acknowledgement should either provide full citation details or refer to the relevant citation in the article reference list - the full citation details should include authors, journal, year, volume, issue and page citation.

Where appearing online or in other electronic media, a link should be provided to the original article (e.g. via DOI).

Development: <http://www.biologists.com/development>

I hope that this helps but please don't hesitate to contact us if we can be of any further assistance.

Kind regards

Richard

Subject: Request to reproduce material for another publication

Hi;

I am writing to ask permission to reproduce two figures for another paper. The paper in question is for JoVE, and I am the original author of the Development paper from which the figures were originally published.

The Development paper in question is this one: <https://dev.biologists.org/content/146/23/dev176685>

I am asking for permission to reproduce Supplementary Figure 1 A-C, and Supplementary Figure 2. I have also attached the JoVE version of these figures to this email for your review.

The JoVE instructions state: "Explicit permission can be expressed in the form of a letter from the editor or a link to the editorial policy that allows re-prints. Please upload this information as a .doc or .docx file to your Editorial Manager account. The Figure must be cited appropriately in the Figure Legend, i.e. "This figure has been modified from [citation]."

If you could provide a letter for upload or point me in the direction of the editorial policy, I would greatly appreciate it. Thanks for your time and consideration.

Todd
