Dear Dr. Nguyen,

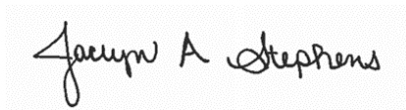

We are pleased to submit a revised version of our invited manuscript:

Revised and Neuroimaging Compatible Versions of the Dual Task Screen.

As requested, we have provided a supplemental document with figure titles and captions, so that each figure has a dedicated title and brief description. We have also revised all references, ensuring that there are no duplicates in the reference list and that all in-text citations are correct.

We feel that our revisions addressed your concerns, and we hope you agree. Thank you again for your time and consideration.

Sincerely,

A handwritten signature in black ink that reads "Jaclyn A. Stephens". The signature is written in a cursive, flowing style.

Jaclyn A. Stephens (signed for all authors)
