Dear Milka,

Thank you for your recent Springer Nature permissions request. This work is licensed under the Creative Commons Attribution 4.0 International License, which permits unrestricted use, distribution, modification, and reproduction in any medium, provided you:

- 1) give appropriate acknowledgment to the original author(s) including the publication source,
- 2) provide a link to the Creative Commons license/include a notice of the CC license in legend and reference, and indicate if changes were made.

You are not required to obtain permission to reuse material from this article, but you must follow the above two requirements.

Images or other third party material included in the article are encompassed under the Creative Commons license, unless indicated otherwise in the credit line. If the material is not included under the Creative Commons license, users will need to obtain permission from the license holder to reproduce the material.

To view a copy of the Creative Commons license, please visit <http://creativecommons.org/licenses/by/4.0/>

Please let me know if you have any questions.

Best wishes,
Oda

Subject: request for re-use of material

[External - Use Caution]

Dear Sir/Madam,

Hope this email finds you well. I am writing to request permission to re-use material from movies and figure from our paper in Nature Communications (<https://www.nature.com/articles/s41467-019-13107-3>) for the purpose of a publication for a corresponding methods paper in Journal of Visualised Experiments. The specific material would include Figures 1 (panels a-c) and 2 (c and some experimental groups of graph in panel d), Supplementary Figures 1 (a-d) and 3 (subset of images in panel a) and Supplementary Movies 1-3. Please let me know if there are any specifications on how to cite the original paper.

I look forward to hearing from you.

Best wishes

Milka
