The Editor,
The Journal of Visualized Experiments

Re: Manuscript JoVE61832

Dear Editor,

We would like to thank the reviewers for their comments and critiques regarding our manuscript “**Experimental Autoimmune Uveitis: An intraocular inflammatory mouse model**”

We have given considerable considerations to all the reviewers’ comments and have addressed the points raised by them. Accordingly, the paper has been revised in response to these comments.

We hope that with these responses to the queries, and the revisions that have been incorporated, our paper will now be considered for publication. We are grateful for the time and efforts of the editorial team and reviewers to critique and improve our work.

I look forward to hearing from you.

Yours sincerely,

M. Eskandarpour
