Review Editor

JoVE

Dear Editor:

We are re-submitting our paper entitled: **“Isolation of viable adipocytes and stromal vascular fraction from human visceral adipose tissue suitable for RNA analysis and macrophage phenotyping”** for your consideration to be published in JOVE.

In the new version of the manuscript, we have addressed both, the editorial and reviewer's comments that contribute to improve substantially our manuscript.

I affirm that all the authors concur with the re-submission, the manuscript is not under consideration elsewhere, and that there is no conflict of interest for any of the authors.

We look forward to hearing from you.

On behalf of all authors

Mario Solis-Paredes, M. Sc., Ph.D.
