

This document certifies that the manuscript

TGF- $\beta$ -mediated endothelial to mesenchymal transition (EndMT) and functional assessment of EndMT effector using CRISPR/Cas9 gene editing

prepared by the authors

Jin Ma, Gerard van der Zon, Gonzalo Sanchez Duffhues, Peter ten Dijke

was edited for proper English language, grammar, punctuation, spelling, and overall style by one or more of the highly qualified native English speaking editors at SNAS.

This certificate was issued on **September 30, 2020** and may be verified on the [SNAS website](#) using the verification code **AFD3-5FAA-OA02-B93D-BEDA**.

Neither the research content nor the authors' intentions were altered in any way during the editing process. Documents receiving this certification should be English-ready for publication; however, the author has the ability to accept or reject our suggestions and changes. To verify the final

SNAS edited version, please visit our verification page at [secure.authorservices.springernature.com/certificate/verify](https://secure.authorservices.springernature.com/certificate/verify).

If you have any questions or concerns about this edited document, please contact SNAS at [support@as.springernature.com](mailto:support@as.springernature.com).
