Dr **Nam Nguyen**, Ph.D.  
Manager of Review - JoVE  
Cambridge, MA - USA

Dear **Dr. Nam Nguyen**,

We would like to submit the new version of our manuscript entitled “**Use of CRISPR-Cas9 technology to genetic manipulation of protozoan parasite *Leishmania***” to be evaluated for the especial issue “Current methods to study parasite-host interactions and immunomodulation” in the JoVE.

In this new version we revised the manuscript based on the editor suggestions. We believe that this version is now suitable for acceptance in JoVE.

Regarding the video, we are working in the production and we intend to submit a first version for evaluation within 30 days.

Best regards,

---
