Dear Dr. Bogunovic,

Thank you for your recent Springer Nature permissions request.

Please see the most relevant parts of our author reuse policy below:

As an author, you retain certain non-exclusive rights over the 'Published Version' for which no permissions are necessary as long as you acknowledge and reference the first publication. These include:

To reproduce, or allow a third party to reproduce the Article in whole or in part in any printed volume (book or thesis) authored by you.

You may also wish to refer to our 'Reprints and Permissions' FAQs on Springer.com: <https://www.springernature.com/gp/partners/rights-permissions-third-party-distribution>

Many thanks,

Subject: Permission for reusing article

[External - Use Caution]

Dear Sir/Madam,

I was recently approached by the Journal of Visual Experiments (JoVE) to author a video publication of the method I firstly published in Scientific Reports. I was wondering in which way I should properly ask for permission to reuse the data from Springer Nature, and additionally, in which way should I indicate that in the JoVE publication? Thank you upfront.

The publication in question is:

Bogunovic, N., Meekel, J.P., Micha, D. et al. Impaired smooth muscle cell contractility as a novel concept of abdominal aortic aneurysm pathophysiology. Sci Rep 9, 6837 (2019). <https://doi.org/10.1038/s41598-019-43322-3>

Kind regards,

Natalija Bogunovic
