## Materials

| Name                                                              | Company            | Catalog Number | Comments |
|-------------------------------------------------------------------|--------------------|----------------|----------|
| syringe, 1 cc                                                     | Becton Dickinson   | 309628         |          |
| syringe, 5 cc                                                     | Becton Dickinson   | 309646         |          |
| needle, 22 G x 1 1/2"                                             | Becton Dickinson   | 305159         |          |
| needle, 26 G x 1 1/2"                                             | Becton Dickinson   | 305111         |          |
| 1-O Braided Silk Suture                                           | Harvard Apparatus  | 517730         |          |
| 3" Curved tissue serrated forceps                                 | Fine Science Tools | 11065-07       |          |
| 3" Curved tissue "toothed" forceps, 1 x 2 teeth                   | Fine Science Tools | 11067-07       |          |
| 4" curved micro dissecting scissors                               | Fine Science Tools | 14061-10       |          |
| bone cutting spring scissors                                      | Fine Science Tools | 16144-13       |          |
| 3 1/2" curved locking hemostat                                    | Fine Science Tools | 13021-12       |          |
| Disposable Skin Stapler                                           | 3M                 | DS-25          |          |
| tracheal cannula (20 gauge x 1/2" stainless steel tubing adapter) | Becton Dickinson   | 408210         |          |
| 60-degree Incline Dissection Board                                |                    |                |          |
| 0.5% Bupivacaine                                                  |                    |                |          |
| Isoflurane                                                        |                    |                |          |
| Betadine and "Q-tip" cotton applicator                            |                    |                |          |
