Materials

Name	Company	Catalog Number	Comments
Experimental Runtime System (ERTS) Version 3.32	BeriSoft Cooperation, Frankfurt/Main, Germany		We used a scripting language based computer programme which sends simultaneously auditory stimuli to a headphone and marker signals to a psychophysiological recording device at millisecond accuracy.
Biopac MP150 system	Biopac Systems, Inc., Goleta, CA		We recorded the physiological data by using this hardware.
AcqKnowledge software	Biopac Systems, Inc.		We recorded the physiological data by using this software.
VOC			Format for the auditory files for instructions and script, compatible with the stimulus presentation software.
