## Materials

| Name                                                           | Company             | Catalog Number | Comments               |
|----------------------------------------------------------------|---------------------|----------------|------------------------|
| Minute Mouse Port 4French with retention beads and cross holes | Access technologies | MMP-4S-061108A |                        |
| Posi-Grip Huber point needles 25 ga. X 1/2"                    | Access technologies | PG25-500       |                        |
| High Temperature Cautery Kit                                   | Bovie               | 18010-00       |                        |
| Forane                                                         | abbVie              | 880393.4 HO    |                        |
| non absorbable suture 6/0                                      | Laboratorio Agaró   | 6121           |                        |
| Scissors                                                       | Fine Science Tools  | 14079-10       |                        |
| forceps                                                        | Fine Science Tools  | 11002-12       |                        |
| clamp                                                          | Fine Science Tools  | 13002-10       |                        |
| Buprenorphine 0,3 mg/ml                                        |                     |                | pharmaceutical product |
| cotton swabs                                                   |                     |                | pharmaceutical product |
| Dalsy (Ibuprofen) 20mg/mL oral suspension                      | AbbVie S.R.L.       |                | pharmaceutical product |
